

KITCHEN bath products

awash in possibilities

From ancient Egyptian rituals to the latest big fat wedding, white has symbolized purity. Hence the status quo for bath fixtures. But **Ceramica Globo's** Bagno di Colore proves there's life beyond the pale. The 14 glazes can withstand an especially high firing temperature, which results in greater color yield. Varying from cool Agate, Dew, Mauve, and Pearl to warmer Cashmere, Chamois, and Chestnut and bold Petroleum Green, they're available on the manufacturer's entire product line, including the Forty3 Collection's circular sink, ceramicaglobo.com. **circle 424**
