

# Riflessi di Luce

## R RIFLESSI DI LUCE

Seven new glossy colours with unprecedented brilliance. The Riflessi di Luce collection represents a significant advancement in Ceramica Globo's wide range of washbasins. The shades are the culmination of the company's extensive in-house research and development efforts, resulting in bold and sophisticated shades that uphold the standards of reliability and high quality embodied by the company.

The seven colours create a surface resembling glass, with the ceramic so shiny and glossy that it almost looks like crystal. The glaze has a full and compact effect that reflects and accentuates light, thus highlighting the lines and geometries of the washbasins.

The names of the new colours evoke a journey through time and space. Terra d'Ombra evokes the depths of the earth, while Ottone Antico conjures images of ancient gold reflections. Rosso Pompei carries the vitality of ancient ruins, while Verde Mare reminds us of ocean waves crashing on the coast. Catrame transports us to dark and mysterious nights, while Denim resembles the delicate hues of the sky at twilight. Lastly, Zaffiro makes us dream of distant stars, taking us into a universe of light and magic.

The dark colours of the Riflessi di Luce collection emphasise the colour contrasts, which add depth and make the furniture stand out, while the light tones contribute to making the spaces seem even brighter and more open.
